Sorry Greg. We will send you something tomorrow on the now executed Navajo assessment contract to tetra tech. We will send the RFP and other materials that summarize the major components that support Navajo employment, training and business development.

Hello Enrique, Angeles, and Harry,

I am following up on this request from a couple of weeks ago.

I still have not received a reply from YPT or WRPT but have reached out again to schedule.

Greg

Subject: Anaconda - tribal employment

Good afternoon,

I wanted to request any information EPA can provide on tribal employment development related to superfund sites.

I believe EPA has some RFP or contract language related to Navajo uranium cleanup that may be helpful. I have some information from our NV Department of Transportation but I thought that reviewing an environmental example could be helpful as well.

I have spoken with YPT and WRPT about some potential dates for NDEP to start this discussion with them in the next few weeks.

Thanks,

Greg
